

60% Undercover Shade Cloth

**High Quality
Material**

Made with 100% Virgin High-Density Polyethylene fibers giving this material long life. The fabric is UV protected to resist fading and retains material strength. The 60% sun block rating is the perfect amount of sun blockage to protect plants, reduce UV rays, drops summer heat by 20 degrees and reduces water usage. Easily rolled to one side in the Winter to allow more sunlight and heat on those shorter days allowing year round growing.
